

# Superfine<sup>®</sup> In-bed system

## Move in Comfort & Safety

The **emotion Superfine<sup>®</sup>** In-Bed system has been designed specifically for the community home care environment. Its key function is to facilitate turning, moving and other transfers within the bed.

**emotion Superfine<sup>®</sup>** In-Bed system is designed to stay permanently in bed.

## Maximise patient comfort and avoid bed sores

**Superfine<sup>®</sup>** material can be placed on top of a pressure-relieving mattress without compromising the pressure-relieving properties of the mattress. The material is designed to minimise friction and shear thereby reducing the risk of pressure sores.

- ✓ Minimal manual handling effort required
- ✓ Reduced friction and shear, assists with profiling
- ✓ Weight tested up to 300kg
- ✓ Turning patients made easy
