- Durable PU cells
- Audible low pressure and power fail alarms
- Easy fit external air filter
- Static function
- Machine washable to 71°C
- CPR pull cord
- Manual comfort control setting
- 1 year warranty

The Viva 1200 Bariatric is a total mattress replacement system measuring 120cm wide.

Suitable for patients considered to be at a very high risk of developing pressure ulcers or for the treatment of existing tissue damage, the system is designed to suit the heavier person without compromising on comfort.

Use of strong PU cells throughout, a quiet pump and smooth cycle switching technology ensures robustness, reduced noise levels and enhanced comfort for the client.

The cover is made from multi-stretch, waterproof and vapour permeable fabric and comes complete with securing straps. An optional Dartex coating helps reduce moisture levels and maintain an even skin temperature.

The Viva 1200 Bariatric incorporates 20 fully alternating cells. The cycle is dual alternating and is 12 minutes in duration.

## Specifications

Dimensions	200 x 120 x 20cm
Pump dimensions	40 x 14 x 20cm
Maximum user weight	300 kg (47 st)
Minimum user weight	80 kg (13 st)
Operating cycle	12 minutes
Pressure range	30 ~ 90mmHg
Mattress weight	9kg
Pump weight	3.6kg
Safety standards	IEC 601-1, BS5724-1
Noise level	Less than 30db
Rating	AC 230v 50Hz 1a 20W
Product Code	2002301
