- Machine washable to 71°C
- Durable PU air cells
- Audible low pressure and power fail alarms
- Easy fit external air filter
- Static function
- CPR pull cord
- Manual comfort control setting
- 1 year warranty

The Viva 180 Paediatric is a total mattress replacement system measuring 90cm wide and 180cm long and is suitable for younger clients to assist in both the prevention and treatment of pressure ulcers.

24 fully alternating, mini PU air cells are combined with a 2" foam underlay providing an effective and comfortable support surface specifically designed for the smaller frame.

A quiet pump and smooth cycle switching technology provide enhanced comfort and reduced noise levels for the client.

The cover is made from multi-stretch, waterproof and vapour permeable fabric and comes complete with securing straps. An optional Dartex coating helps reduce moisture levels and maintain an even skin temperature.

24 fully alternating cells. The cycle is dual alternating and is 12 minutes in duration.

The Viva 180 Paediatric can be combined with the Viva seating system for 24 hour continuous care.

Specifications

Dimensions	180 x 91.5 x 15cm
Pump dimensions	40 x 14 x 20cm
Maximum user weight	114 kg (18 st)
Operating cycle	12 minutes
Pressure range	20 ~ 70mmHg
Mattress weight	9kg
Pump weight	3.6kg
Safety standards	IEC 601-1, BS5724-1
Noise level	Less than 30db
Rating	AC 230v 50Hz 1a 7W
Product Code	2002311
