- Machine washable to 71°C
- Audible low pressure and power fail alarms
- Easy fit external air filter
- Static function
- CPR pull cord
- Manual comfort control setting
- 1 year warranty

The Viva 900 is a total mattress replacement system measuring 90cm wide.

Suitable for patients with a very high risk of developing pressure ulcers or who have existing tissue damage.

Use of comfortable, pvc coated, nylon cells throughout, a quiet pump and smooth cycle switching technology provides enhanced comfort and reduced noise levels for the client.

The cover is made from multi-stretch, waterproof and vapour permeable fabric and comes complete with securing straps. An optional Dartex coating helps reduce moisture levels and maintain an even skin temperature.

The Viva 900 Bariatric incorporates 20 fully alternating cells. The cycle is dual alternating and is 12 minutes in duration.

Specifications

Dimensions	200 x 90 x 20.3cm
Pump dimensions	28 x 10 x 20.5cm
Maximum user weight	170 kg (27 st)
Minimum user weight	32 kg (5 st)
Operating cycle	12 minutes
Pressure range	30 ~ 80mmHg
Mattress weight	7kg
Pump weight	2.6kg
Safety standards	IEC 601-1, BS5724-1
Noise level	Less than 30db
Rating	AC 230v 50Hz 1a 12W
Product Code	2002300
