

emotion In-Situ Slings

emotion®

Our emotion range of slings provide a simple and cost effective transfer solution. The slings have been developed based on years of experience working closely with clinicians and care workers, responding to requirements in both the acute and long-term care environments. Our innovative design with advanced polyester material results in a hard wearing and robust, but low cost sling range.

In-Situ Fabric

A fully breathable fabric and stretchable material, which is ideal for moulding into the shape of a wheelchair seat. In-Situ material is an excellent choice for bathing as water freely drains through the material enhancing the overall comfort and fit.

Scandinavian Approach

The emotion design aims to create maximum comfort for the patient and simple practicality for the care provider.

Our slings are compatible with most leading brands of patient transfer equipment available today

Strength Where It Counts

Strength and safety are built into the design of our emotion range of slings. Our slings use parachute grade thread and double box stitching to enhance durability. Users can be confident of a secure and safe hoisting experience.

Full Range

Our Slings are available in a range of sizes including paediatric and plus sizes. Colour coded seams provide a visual aid to help identify the sling size.

- **High Quality in Design**
- **Safe working load of 300 to 500kg**

emotion In-Situ Slings

In-Situ SecureSling

The SecureSling is made from a fully breathable and stretchable In-Situ material which is ideal for extended periods of use.

The sling provides a stable and comfortable head support without the use of plastic inserts or seams. The design allows users to be positioned with either arms out or in depending on individual requirements.

Size	Width at Hips	Sling Overall Height
XS	15cm-25cm	75cm
S	25-30cm	81cm
M	30cm-35cm	90cm
L	35cm-45cm	102cm
XL	45cm-55cm	102cm

In-Situ HammockSling

The HammockSling is an ultra-comfortable sling designed with a comfort band for the back of the legs. This design allows the weight of the user to be more equally dispersed, reducing strain to the back of the legs.

The comfort band provides padding to the back of the legs. This sling is also suitable for above the knee amputees.

Size	Width at Hips	Sling Overall Height
XS	22cm-35cm	80cm
S	35cm-43cm	90cm
M	43cm-56cm	95cm
L	56cm-72cm	98cm
XL	72cm-90cm	100cm

In-Situ UniversalSling

The UniversalSling provides support for the patients lower body and back without head support. The Sling is suitable for those with good head control, who need support for the lower body. The through-leg design provides an aperture space for hygiene toileting needs. **Slings are compatible with most leading brands of transfer equipment available today.**

Size	Coccyx to Top Of Head	Width at Hips
XXS	50cm-54cm	Under 23cm
XS	54cm-60cm	23cm-33cm
S	60cm-70cm	33cm-41cm
M	70cm-84cm	41cm-48cm
L	84cm-96cm	48cm-56cm
XL	96cm-108cm	56cm-66cm
XXL	108cm-120cm	Over 66cm
